

U.R.SECURITY

Information Security Awareness

Information Leakage

From the UGA Office of Information Security

For More information please visit infosec.uga.edu

OCTOBER IS NATIONAL CYBER SECURITY AWARENESS MONTH
SECURE LAPTOPS, PHONES, AND USB DRIVES

**KEEP YOUR MOBILE DEVICES
OUT OF THE WRONG HANDS**

- Prevent a security breach by keeping data out of reach.
- Until we learn what breaches teach us, we will be a target of data loss.
- Report data spills, before molehills become mountains or small leaks become fountains.
- **DON'T** let your trash becomes someone else treasure, feed your shredder more often.
