Notice

Water interruption in Pienaarsrivier, Bela Bela town and township

The Bela Bela Local Municipality hereby wishes to inform all residents and ratepayers that the municipality is currently experiencing interruption in water supply.

The affected areas are Pienaariver, Bela Bela town and township.

The interruption is due to technical problems experienced by the Magalies Water resulting in the breakdown of supply to our municipality and other areas.

The municipality is however doing its best to continue providing water supply to the affected areas from our own sources.

In this regard, the municipality is calling on all residents to use water sparingly until normal water supply is restored.

Restrictions

The Bela Bela Local Municipality hereby further places a temporary restriction on the watering of gardens.

All residents are urged not to water their gardens until full supply is restored.

N.S Bambo
Municipal Manager
