Invitation for Quotations: In house Training of Councillors and Management Team on Morphology of Developmental Local Government and the Key Strategic Tools thereto

Local government faces several related challenges including amongst others, poor capacity and weak Administrative and Governance systems illustrated by poor financial and administrative management, weak technical and planning capacity, governance challenges and uneven fiscal capacity. In the past 10 years there have been various initiatives and interventions planned and coordinated by the national and provincial departments aimed at supporting Municipalities to overcome these challenges. These interventions for the most part have produced minimal impact and less than optimal results over time.

This is due to a lack of a cohesive plan, uniform approach, co-ordination and alignment amongst the sector departments in implementing these interventions. Addressing these challenges require longer term strategies developed by municipalities working collaboratively with provincial and national government, including addressing capacity constraints, a commitment to continuous and incremental improvement, clear understanding of co-operative governance and the interrelations thereof as well as a commitment to high performance and a willingness to learn from each other's experiences.

There is therefore a strong need for a sound interface between Sound Political Leadership and Administrative machinery, founded on understanding and boldness in implementing there incidental tools thereto.

Suitable Qualified Service Providers with sound understanding of the Local Government operations, systems, instruments and key tenants requisite to the building of a Developmental Local Government are hereby invited to submit Quotations to render a one (1) day in-house training to this effect.

The Training should cover amongst others key aspects:

- Unpacking of Developmental Local Government and founding Principles thereto.
- Qualities, Character and Attributes of a breed of Political and Administrative Individuals required towards impactful Developmental Local Government Agenda
- Determining Factors to effective Political Oversight;
- Maintaining a positive and working Political and Administrative interface
- Significance of Key Strategic Instruments (IDP and Budget) to the Developmental Local Government Agenda.

Yours Sincerely

M.M. MALULEKA
