2. INTRODUCTION

Both the Integrated Development Plan (IDP) and Budget of the Municipality are Municipal Strategic Plans. Whilst the IDP outlines developmental priorities and objectives within a Municipality, the Budget articulates yearly service delivery and budget targets, which must further be broken down to manageable timeframes linked to deliverables within the year.

A Service Delivery and Budget Implementation Plan (SDBIP), in terms of the Municipal Finance Management Act (MFMA), is a detailed plan approved by the Mayor for implementing the Municipality's objectives. It is informed by the Integrated Development Plan and the Budget approved by Council and seeks to, in detail, map out how the IDP priorities and objectives, through various departmental programmes, will be achieved.

The SDBIP provides the vital link between both the Council and Administration. Administration facilitates the process of holding management accountable for its performance. The SDBIP is a management, implementation, monitoring tool that will assist and guide the Mayor, Councillors, Municipal Manager, Senior Managers, and the community.

The SDBIP is in essence the management and implementation tool which sets in-year information such as quarterly service delivery and budget targets. It further links each service delivery output to the budget of the Municipality. Additionally, it indicates the responsibilities and outputs for each of the senior managers and the top management team, the resources to be used and the deadlines set for activities.

As informed by the IDP and the budget the SDBIP thus facilitates oversight over financial and non-financial performance of the Municipality. The Bela-Bela Local Municipality (BBLM) has prepared the 2024/2025 SDBIP in accordance with the requirements of the MFMA and the National Treasury guidelines.

The (IDP) outlines how the challenges of sustainable development in a Municipality are to be met through strategic intervention and optimum service delivery over a five-year period. The IDP is developed by a Municipality in conjunction with its community, and a credible IDP must be supported by a realistic and sound budget. Effective service delivery relies upon the IDP, the budget and the performance management system being closely integrated. All capital projects are developed in line with technical indicator description. The municipal SDBIP is thus a dynamic tool that facilitates this integration.

The SDBIP forms the basis on which Performance Agreements of the Municipal Manager and Senior Managers will be revised and signed in terms of Section 57 of the Municipal Systems Act.

2.2 LEGISLATIVE IMPERATIVE

The basis for performance management is to be found in Chapter 6 of the Municipal Systems Act 32 of 2000. More specifically Section 38 which reads as follows:

“A Municipality must –

- (a) Establish a Performance Management System that is –
 - (i) Commensurate with its resources.
 - (ii) Best suited to its circumstances; and
 - (iii) In line with the priorities, objectives, indicators, and targets contained in its Integrated Development Plan; “

Furthermore, such a system must promote a culture of performance management in a Municipality’s political and administrative structures and facilitate the management of its affairs in an economical, efficient, effective, and accountable manner.

To a large extent Municipalities have the discretion to determine their own system and reporting frequencies. The exception to this freedom is that the laid down National Key Performance Indicators (KPI’s) have to be taken into account and it is required that performance had to be reviewed and reported on at least once a year.

In terms of Section 53 (1) © (ii) of the MFMA, the SDBIP is defined as a detailed plan approved by the mayor of a Municipality for implementing the Municipality’s delivery of Municipal services and its annual budget, and which must indicate the following:

- (a) Projections for each month of –
 - (i) Revenue to be collected, by source; and
 - (ii) Operational and capital expenditure, by vote
- (b) Service delivery targets and performance indicators for each quarter, and
- © Any other matters prescribed

With the implementation of the MFMA the frequency, method, and type of reporting in respect of Municipal affairs have been tightened up considerably. There has also been a clear allocation of responsibilities as well as accountability in respect of the Mayor and the Municipal Manager (MM) (read Accounting Officer).

Examples of such responsibilities are –

- (a) Submission of SDBIP to Mayor – Municipal Manager
- (b) Approval of SDBIP – Mayor
- (c) Monthly Budget Statements – Municipal Manager
- (d) Quarterly Reports – Mayor
- (e) Mid-Year Assessment – Municipal Manager to Mayor

- (f) Annual Report – Municipal Manager
- (g) Annual IDP/Budget Review program – Mayor

It is essential that the provisions of the Systems Act, its Regulations as well as the MFMA be read together when one looks at the broad arena of Local Government Performance Management.

According to Section 53 of the MFMA, the Mayor is expected to approve the SDBIP within 28 days after the approval of the budget. In addition, the mayor must ensure that the revenue and expenditure projections for each month and the service delivery targets, and performance indicators as set out in the SDBIP are made public within 14 days after their approval.

2.3 MONITORING OF THE IMPLEMENTATION OF THE SDBIP

Progress against the objectives set out in the SDBIP will be monitored and reported on a quarterly, bi-annual, and annual basis as set out in the MFMA and the MSA.

Timeframes and responsibilities as set out in the MFMA are as follows:

- a) Monthly budget statements (**Section 71 – Accounting Officer**)
- b) Quarterly reports (**Section 52 – Mayor**)
- c) Mid-year budget and performance assessment (**Section 72 – Municipal Manager as Accounting Officer to Mayor**)
- d) Annual report (**Section 121 & 127 – MM to Mayor and Council**)
- e) Oversight Report (**129 – Council**)

GM

3. CONCLUSION

The SDBIP is a key management, implementation, and monitoring tool, which provides operation content to the end-of-year service delivery targets, set in the Budget and IDP. It determines the performance agreements for the Municipal manager and all senior managers, whose performance can then be monitored through Section 71 monthly reports, and evaluated through the Quarterly Reports, Annual Performance Report, Annual Report Process as well as the Quarterly Individual Performance Reviews.

It is envisaged that adherence to this document will enable the municipality to continue to be a smart and a benchmark Municipality which is high performing and service delivery oriented. Furthermore, the amendments effected in this Organizational Score Card will be affected in the Departmental and Divisional Score Cards to ensure optimal implementation within the concept of Back to Basics.
