Monies are unclaimed for various reasons and commonly arise amongst other things from the following:

3. BACKGROUND

Bela-Bela Local Municipality receives money from various depositors for various reasons on a daily basis. Consumers, individuals or businesses have the option to pay for municipal services or other services rendered by the Municipality by way of an electronic transfer or deposit at the bank. Provided that such payments are correctly referenced, the municipality is able to automatically allocate the payments into the relevant customer’s account.

Throughout the years, however, the Municipality received various deposits that reflect on the bank statements with either the incorrect reference numbers or the reference number is not sufficient to identify the person who made the deposit. These deposits can only be receipted against a debtors account only when proof of the deposit can be furnished to the Revenue Division by the person that made the deposit.
